Preface

The AIX reports are designed and intended primarily for use by the state park directors and their staff for various purposes, such as identifying program, facility and personnel needs, formulating budgetary requests for state legislatures, and comparing their programs with those of the other states. For such "in-house" use, the reported data essentially speak for themselves and require little explanation or amplification. Over the years, however, state parks data published in the AIX have been increasingly requested, and presumably used, by a growing number of other individuals – in academic institutions, other governmental agencies, and business and industry. Because of these expanding external interests, it is important that the subject data first be adequately understood so they may be properly applied. For that reason, every effort has been made in compiling this report to provide guidance for the user, as well as to ensure accuracy and completeness of the data themselves.

Slight changes have been made in this report each year in format, organization and in the included subject matter. This current version contains the same types of information as in the past, presented in a manner intended to facilitate access and allow ready comparison with similar data for previous years.

It is recommended that all users of the data in this report, whether veteran park staffers or novices, first carefully review the accompanying definitions, notes and symbols to make sure they have the best possible understanding before making assumptions or drawing conclusions based on this data set.

Phil McKnelly
Executive Director, NASPD

Ruth Coleman
President, NASPD

The information contained in this report represents the most current data submitted by the states at the time of publication. Updated data are available from the National Association of State Park Directors and the AIX Project Team.

Introduction

All data in this report are for the period between July 1, 2010 and June 30, 2011, or for the status as of that date, whichever is applicable. Please note that the title of this report has changed since 2009 to clearly reflect the time period covered by the data, not the year in which the report is published.

All data are provided by the state park agencies for their respective states. Where exact data are not collected by certain states, those states are requested to estimate as accurately as possible rather than omit responses altogether. If current year data were not provided by the state, prior year data were used.

Reasonable efforts were made to ensure the accuracy and completeness of all reported data. For example, data entries were compared with previous year's data to identify unusual changes, and total values were checked for possible calculation errors. Apparent input errors were marked on the draft report distributed in December 2011 to facilitate review and correction by the states. For these and other possible errors individual states were also contacted to verify the data item(s) in question. We believe this error-checking process has resulted in a more accurate data set. However, users are advised to contact the individual states directly if further verification is desired.

This report contains only tabulated raw data. Analysis and interpretation is the responsibility of the individual user. While all of the fifty state park systems share common attributes, they nevertheless vary considerably from state to state. For this reason, total comparability among the reported data cannot be achieved. Effort has been made, however, to devise common denominators that will allow a useful degree of comparison. Users of these data should become familiar with the definitions and guidelines established for certain categories, as set forth below.

The following sections are organized by tables. Each 'table' corresponds to the respective AIX worksheet that was distributed to each state. As each table/worksheet has many columns they are broken down into several pages for display in report format. Each section starts with a brief introduction followed by the data tables. At the end of each table there are explanatory notes. Finally, definitions of terms are provided at the end of the report.

Table 1: Inventory
(page 1 of 5)

Inventory pertains to the real property assets of a state park system, i.e. the various areas of land and water managed directly by the state parks agency. Inventory is measured in terms of number of areas and total acreage.

Explanatory Notes

STATE	NOTES
Colorado	Natural Areas in Colorado are not owned by the State of Colorado, nor are they part of the Colorado State Parks system. Colorado Natural Areas are voluntary agreements with land owners, often private land owners, and remain the property of the particular owner. Colorado may close operations at one state park in the State FY 10-11. Potential partial closures are possible at 4 or more additional parks due to budget constraints.
Delaware	Land Acquisitions, donations and Government transfers
Georgia	The changes in acreage represent a change in the categorization of properties in the official DNR Real Estate Database.
Hawaii	An update of the parks inventory resulted in more accurate acreage of the areas within the parks system.
Idaho	Changes include past acreages missed and a new assessment of land classification.
Indiana	Roush Lake removed from "other" (8217 acres) because it changed Divisions.
Iowa	Other/Misc Areas are the state parks managed by county conservation boards
Kentucky	KY State Parks GIS Analyst, Alex Thor, has assisted with the Total Acreage Inventory for the last 4 NASPD-AIX surveys. The GIS division has been corresponding with our state Finance & Administration Cabinet regarding the original deeds of parks' lands, while continuing to manage the boundaries and GIS data for our state parks. There was also land conveyed from KCTCS and KYTC, while Parks transferred a few acres of its own. As a result, our total acreage was increased, compared to previous years' data... due to advanced technology that allows our team to accurately outline our state owned boundaries for our parks. Furthermore, Alex Thor reiterated that over the next 2-5 years, our acreage amounts may continue to change as he continues to dissect these historic deeds and attempt to accurately map out our State Parks' boundaries. Through perpetual meetings with KY Division of Real Property and other state agencies, we will be able to depict our acreages with more precise totals.
Maine	Areas: Three new recreation areas added and one existing area now reported separately from an abutting area. In addition to these, one previously undeveloped area became operational. Acreage changes: 556 newly acquired acres at 6 areas; 143 net acres gained from previously unreported acquisitions and transfers at 5 areas; and 18 acres gained from acreage corrections at 2 areas.
Maryland	Trails: Three operational trail areas added. New trail miles added and several existing mileages corrected or updated.
Massachusetts	For this period, all areas have been combined due to official designation as State Parks. The Maryland Park Service has 2 Major Rail Trails comprising 31.5 Miles and 653 acres. Individual parks have a total of 789 miles of trails and water trails
Minnesota	The number of acres increased from last year by 1,958 acres. These acres are included in the other and miscellaneous acreage.
Montana	Other & Miscellaneous Areas includes 1,567 Water Access Sites and 8 State Waysides. In FY2011 the division deleted one park and added one park and acreage. The additional increased in acreage was approximately 238 acres. Increase in Parks acreage indicates additional easements to existing parks and other conveyance recording. Total Trails- Montana State Parks only manages trails within our state parks. We assist local clubs and communities through grant programs but do not manage any trails that may be established.
Nebraska	Data not provided for 2008.
New Hampshire	Trail easement added to Potter Recreational Trail (1 ac).
New Mexico	Vietnam Veterans Memorial State Park included as Historical Area in 10/11; Natural Areas: Broad Canyon; and Environmental Education Areas: Rio Grande Nature Center and Mesilla Valley Bosque State Parks.
New York	This table contains data from both the New York State Office of Parks, Recreation and Historic Preservation (OPRHP) and the New York State Department of Environmental Conservation (DEC). Information for New York is based on the state's fiscal year, April 1, 2010 to March 31, 2011.
North Carolina	Eleven "Other" areas include 7 State Lakes (29,135 acres of water) and 4 State Rivers. In addition to the above figures, we also have 1965 acres along the Deep River State Trail and Mountains-to-Sea Trail. Mountain bogs are now counted as separate units.
Oklahoma	Seven properties were transferred to alternative operators.
Oregon	State Recreation Areas = SRA/SRS; Natural Areas = SNA/SNS; Historical Areas = SHS/SHA; Other & Miscellaneous includes Scenic Viewpoints, Waysides, Scenic Corridors, etc. "Operational" determined in consultation with Frank Howard and use of the HUB asset management system.
Pennsylvania	PA continues to GPS its trails. As we continue to refine this program, the numbers of trails and mileage will be corrected. Other & Miscellaneous Areas have been incorporated into the total number of state parks.
South Carolina	All State Recreation Areas and Natural Areas are now classified as State Parks.
South Dakota	Sandy Shore Recreation Area - Acquired 14 acres in land trade
Tennessee	Acres added - 2958 state parks + 40 acres in natural areas= 2998 acres total
Texas	Other - 19,135 acres held in conservation easements
Utah	TRAILS here consist only of our designated trailways and does not include all trails in SP, SHS, SNAs.
Washington	We have included the number and miles of motorized trails this year, so this included motorized and non-motorized trails. This is how it will be reported from this year on.
West Virginia	Increase of 8 state parks in the system came from 3 recreation areas, 2 historical areas and 3 miscellaneous areas that were reclassified as state parks through the Classification and Management Plan process. Recreation Areas: 5 decrease resulted when 3 recreation areas were relinquished to other government entities. Natural area: 1 increase result of the correction of previous year's classification error. Historical area: decrease 2 area in the system because they were reclassified to state parks. Misc: decrease of 4 areas resulted when one was merged into an adjacent state park and 3 were reclassified to state parks. No new parks have been opened.
Wisconsin	Trail data refers to only our two rail trails. Total trails in all areas equal some 1000 miles.
Wyoming	State forest acreage count from 09/10 incorrectly included state forest not managed by state parks administration 2011 Updated Trails Data From GIS Data Compiled. GIS Data edited and acres re-figured. No loss of land just more accurate data.

Table 2: Facilities
(page 1 of 7)

This report tabulates the number of separate state park areas offering such facilities, as well as the total number of such facilities, broken down by year-around and seasonal availability. States that provided "0" or no data are excluded from averages. To be included the facilities must be owned by the state and either self operated or concession or lease operated by private business. Facilities may also be included which are owned privately and operated by the state. Facilities which are neither state owned nor state operated may not be included, regardless of whether access to such facilities crosses park lands or not.

Table 2: Facilities
(page 7 of 7)
Explanatory Notes

STATE	NOTES
Arizona	Lyman Lake & Picacho Peak closed seasonally in FY11.
Arkansas	Petit Jean State Park's Mather Lodge was taken offline for major renovation, Dec 2010-Jun 2011: subtracted (24) rooms; (1) restaurant; and (1) pool.
	The golf course at Village Creek State Park was closed during the 2011 reporting period for repair/renovation: subtracted (18) golf holes; and (1) golf course.
California	Table 2 - 'Cabins/Cottages' include floating campsites.
	Table 2 - 'Lodges' include hotels, hostels and bed & breakfast type facilities.
Colorado	There are a total of 63 cabins/yurts/tipis in the Colorado State Parks system; 19 of these are contractor operated.
Florida	Changes in campsite and cabin numbers are due, in part, to ongoing efforts to standardize and upgrade the Florida Park Service's facilities inventory procedures.
Indiana	Roush Lake removed, which reduced both the "improved" and "primitive" areas by 1. Also reduced number of campsites in each category.
Iowa	Primitive campsites are those campsites located in a nonmodern campground. Availability in winter is dependent on weather. We have added amenities included in our new resort which is under a management agreement with a management company. The swimming pool is actually the indoor waterpark at the resort.
Kansas	Added more cabins
Kentucky	Various campsites throughout the KY State Parks were refurbished & renovated, while new Equestrian (Horse) Campsites were added to Carter Caves SRP and Pennyville Forest SRP.
Louisiana	Lodges are typically a larger cabin that sleeps 12-15 individuals.
Maine	Improved campsites now include previously omitted group sites. Primitive campsite count for the Penobscot River Corridor now reflects the number of individual campsite cells.
Massachusetts	Budget savings- 1 primitive and 1 improved campground remained closed for FY11 (Windsor and Massasoit). New yurt colony at Myles Standish State Forest, and new group yurt at Willard Brook State Forest. Submitted by Anita Wysocki.
Missouri	Restaurant number decreased by 1 due to extended flooding (park closure).
New Hampshire	Added Monadnock Gilson Pond Campground, Pawtuckaway cabins, Milan Hill yurts.
New Jersey	Due to our new winter operations, the number of camping facilities offered in the winter has been reduced. Increase in Restaurants is due to the acquisition of new property and expansion of concessions within existing areas.
North Carolina	In addition to above, also operate The Summit Environmental Education Center at Haw River State Park with motel-style rooms, 10 dormitory-style youth cabins, food service, and swimming pool. Group sleeping: SILA, WILM, and HARL. Cabins: HARO (10 open year round), MOMO (6 part year).
Ohio	Middle Bass Island Marina was completed
Oregon	Improved= full, electric, and tent Primitive = walk-in, primitive, and horse Cabins/cottages = cabins, yurts, and tepees Group Sleeping = Ranches (Silver Falls) Lodges = Silver Falls, Wolf Creek, and Frenchglen (closed in winter) Restaraunts = Wolf Creek, Frenchglen Marinas = The Cove, Wallowa, Stewart
Pennsylvania	PA Lodges include the following: The Inn at Bald Eagle & Kings Gap Environmental Education & Training Center
South Dakota	Cabins/cottages include "concessionaire" operations (they are counted as seasonal) Number of Separate areas that offer Primitive campsites was recorded in error last year. Therefore, last year's number should be 19.
Tennessee	6 rental units placed back in service at Edgar Evins after fire damage repairs
Vermont	There are 13 campgrounds that offer cabins and cottages - previously the number of cabins and cottages units in the entire system was recorded, which was incorrect. Lodge rooms are seasonal (as noted below as well) not year round as previously recorded.
Washington	Hyak Lodge reported in FY09/10 is no longer operated by Washington State Parks. Eastern Region used to count Squilchuck ski slope. According to NASPD's definition, this slope did not meet the criteria - not included in FY10-11 report. Golf courses are located in the southwest and eastern regions. Marinas increased because staff interpretation in prior fiscal year was unclear.
Wyoming	Campsite numbers based on GIS does not include improvements at Keyhole, Glendo, Guernsey or Sinks. Does not include Cabins at Keyhole. These did not open till after the 4th of July, 2011. Yurts at Guernsey if they are open by June will also need to be put on here. Lodge rental is for entire facility, individual rooms are not rented as lodges contain group bunk areas.

Table 3A: Visitation and Use - Attendance
(page 1 of 7)

This table comprises three subsections, Table 3A, Table 3B and Table 3C. State park visitation, or attendance, is reported separately for “day” use and “overnight” use, and by “fee” areas and “non-fee” areas.

STATE	Fee Areas			Non-Fee Areas

Table 3: Visitation and Use
(page 7 of 7)
Explanatory Notes

STATE	NOTES
Alaska	Currently revamping the Alaska State Parks visitor counts. We do not have an accurate count for 2010 Note: Since no data were provided for Tables 3A and 3B for 2010-2011, data for these tables are from 2009-2010.
Arizona	Cabins and Yurts are not separated from number of campers. They are included as overnight users. Overnight Facility Use information, table 3C, is not available at this time. Day-use attendance = visitors who paid day use entrance fees + annual pass users. In years 2009 and before, this data did not include annual pass users. Attendance numbers above include parks currently being operated by partners if data was available. Fees are not collected at Yuma Quartermaster Depot and McFarland State Historic Park as they now serve as the City of Yuma and the City of Florence (respectively) Visitor Centers as well. Arizona State Parks began using a reservation system for cave tour tickets and campground reservations in FY11. Because this system did not contain the tools which would have allowed parks to collect visitation information in the same way they have historically, visitation in FY11 should not be considered equivalent to that of years past. As the reservation system continues to develop, these numbers will become more reliable.
California	Table 3b: 2010 Number of Group Sleeping Guests is reported as zero because these visitors are included in the numbers of campers California State Parks does not itemize visitation according to NASPD's classification of facilities. Table 3c: Cabin use total includes Crystal Cove SP beach cottages. Table 3c: 2010 Seasonal Facilities / Campsites is reported as zero because these visitors are included in the numbers of campers. California State Parks does not itemize visitation according to NASPD's classification of facilities.
Colorado	Table 3c: Number of lodge, cabin/cottage and group sleeping guests included in number of campers because these visitation data are not itemized. Camping numbers are different from FY 09-10. This is due to improved record keeping.
Delaware	Year round Campsites = Killens (20%) + Del Seashore. Seasonal Campsites = Lums+Trap+Cape+Killens(80%) Year round Cabins = Killens+Del Seashore. Seasonal Cabins = Lums+ Trap(cabins and Yurts). Lodging = Cape(Biden Center and Youth camps). Occupancy = rental nights x 2.9 (camping) and x 3.1 (cabins)
Florida	All Florida State Park facilities are open year round, 365 days.
Georgia	Table 3b: Substantial increase in group facilities number over prior years is due to more accurately tracking rental group facilities and pioneer group camping areas.
Idaho	The number of days in the rental season varies by site.
Illinois	Campsites - no longer receive updated report. Will continue to use old number.
Indiana	Table 3c: utilized two different reporting systems (ReserveSuite and ORMS) for reservation system this year. Reservesuite accounted for July 1, 2010 thru February 27, 2011. ORMS accounted for February 28, 2011 thru June 30,2011.
Iowa	No lodge data available.
Kentucky	Due to state financial budget issues, along with the decisions of Governor's Office & State Park management, our KY State Parks were closed several days throughout the "off-season" to help compliment statewide employee furloughs. Seasonal repersents Apr - Oct.
Maine	"Fee" Areas now exclude all areas where entrance fees are collected from "iron rangers," and payment, though required, is essentially voluntary. Camper nights from Table 3a are divided by average party size of 3. Number of days in rental season have been recalculated.
Massachusetts	Attendance numbers include large scale events including the nationally televised Fourth of July at the Hatch Shell in Boston where an estimated 500,000 people attend. Attendance numbers also include attendance at pools. Number of campers: nights * avg 3 people per night per site. Number of Cabin/cottage: nights * avg 3 people per night per site. For budget savings rental season truncated in FY10. Opening dates moved from April 1 to May. New Cabin facility in FY10.
Minnesota	Figures only include visitation to State Parks and Recreation Areas. This does not include visitation to State Trails, Water Recreation Facilities, or State Forest Facilities.
Mississippi	This year the numbers were based off revenue for day use items and overnight lodging. Previously, there was a different calculation used. It was felt that basing the numbers off revenue was a truer picture of our actual visitors.
Missouri	New attendance system does not differentiate between lodging types (cabins, motel rooms, lodge rooms, etc). All lodging-type numbers are reported under Cabins.
Montana	Table 3a: Non-fee Day Areas = all state parks State Parks daily entrance fees are not charged to Montana residents. Visitors arriving in vehicles bearing Montana license plates at a state park for non-commercial purposes are granted free day-use access for all occupants of the vehicle. As of January 2004, residents pay an optional \$4 state parks fee when registering light vehicles annually. Park attendance is estimated monthly using traffic counters for the following: 1,538,316 day visitors and 259,961 overnight visitors, totaling 1,798,267 park visitors in FY11. Fee Overnight Areas = all camping at state parks Table 3b: Number of cabin guests was actual counts by individual park managers and data from the reservation system. Cabin guests are included in overnight visitors counted in Table 3a).
	Table 3c: Park campsite rental nights were estimated from revenue generated. Fourteen parks are open for camping all year; eleven parks are open seasonally. The "cabins" category includes tipis, yurts and cabins, none of which are self-contained. Guests use the public restroom facilities.
New Hampshire	3A: Non-fee attendance is not tracked at Hampton Beach, Franconia Notch & Crawford Notch. 3C: Does not include onsite registration campsites (Coleman, Deer Mtn, Dry River, Monadnock, Pillsbury & Mt Sunapee).
New Mexico	The 10/11 Overnight Facility Use includes utilization summary report figures from the Reservations Contractor and estimated usage of cabins and lodge rooms at Elephant Butte Lake State Park. The 14 cabins were estimated at 50% occupancy rate and the 15 lodge rooms at a 33% annual occupancy rate. Campsites for Seasonal Facilities: New Mexico State Parks does not distinguish "seasonal use" in its counts.
New York	Attendance data includes information from OPRHP.
North Carolina	3b. "Lodge guests" reports Summit EE Center overnight visitation; "Cabins" reports MOMO & HARO; "Other" is FOFT; "Group" reports SILA & WILM group camps. Former seasonal facilities now open year round under new central reservation system. 3c. Large discrepancy in campsite rental nights is due to transition to CRS system data. Subsequent year's data will be more consistent with reporting for FY10/11.
Oregon	Campsites are all sites except cabins and yurts Cabins are only cabins and yurts Lodge Rooms include Silver Falls & Wolf Creek for year round and Frenchglen for seasonal.
Pennsylvania	PA Lodges include: The Inn at Bald Eagle and Kings Gap Environmental Education & Training Center
South Dakota	In Table 3c, last year's number for 'Total Facilities Rendered during the Year' should be 248,934.
Tennessee	We can only report total campsites sold and cannot differentiate seasonal sales.
Virginia	We have several facilities (environmental education centers) for which we do not track rental nights. This is a very small portion of our overnight business.
Wyoming	2011 Campsites based on # campers/party=4.7; 2011 Campers=351810/4.7=74853 rental nights; 74853 rental nightsX5.3% sites open seasonally =

Table 4: Capital Expenses
(page 1 of 2)

Capital expenditure consists of new land acquisitions and new construction of state park improvements.

STATE	By Purchase		By Other Means		Total Acreage Acquired	New Construction Costs

Table 4: Capital Expenses
(page 2 of 2)
Explanatory Notes

STATE	NOTES
California	Table 4a - 'Total value of all lands acquired by other means' figure represents the total value donated to California State Parks for the acquisition of properties 'acquired by purchase'. California State Parks tracks this amount separately from the purchase price of the fee acres, which is the amount listed as 'Total cost of all lands purchased'.
Colorado	Acquisitions remained fairly static. Construction increased as funds shifted from filling operating funding gaps back to construction.
Florida	The majority of our capital improvements are paid from State Trust funds that are statutorily mandated for land management and facility development among other issues.
Georgia	Values for Capital Expenditures reported by E. VanDeGenachte based on data secured from DNR Real Estate on 100927. Explanations available from document: "Citations and Background for the AIX-2010.doc" Values for "4b" reported by T. Hooks and represents new construction only, not repairs and maintenance.
Illinois	Land Acquisition - the Department transferred out 125.309 acres valued at \$532,707.37
Kentucky	> Due to state financial budget issues & decisions of the KY General Assembly, KY State Parks performed many Improvement, Renovation, Repair, Replacement & Upgrade projects. Only 1 New Construction Project was performed Kingdom Come Trail Shelter. >
Maine	New acres acquired at Aroostook, Camden Hills, Middle Pond, Appalachian Trail, and Jay-Farmington RR Trail and Medford-Lagrange RR Trail.
Massachusetts	See Spreadsheet for details on projects included.
Minnesota	New construction includes construction on State Trails, Water Recreation Facilities, and State Forest Facilities.
New Hampshire	New construction projects: 1) North Hampton pay station installation.
New York	Total cost of all lands purchased includes \$335,740.00 spent on conservation easements. Number of acres acquired by purchase includes 56.01 acres of conservation easements.
North Carolina	"Initiated" defined as construction start date per contracts.
Oregon	Table 4a data source: Alice Beals
South Dakota	Table 4b data source: Brandy Nichols (Brio query) 4.7 Acres at Palisades SP \$349,000 2.26 Acres at Big Stone Island \$500
Tennessee	Lands acquired by other means- Land Trust for TN - 56 acres/\$16,500 donation value, Friends of Radnor Lake - 40 acres/\$4,110,000 donation value
Texas	New Construction figures are for Fiscal Year 2011 (9/1/10-8/31/11)
Utah	This includes some \$ from Risk Management to replace a building that was destroyed by fire.

Table 5A: Financing – Operating Expenditures
(page 1 of 19)

Expenditures are reported in two general categories: operating expenditures and fixed capital expenditures. Please refer to the definition of terms section for a detailed description of each. Table 5 comprises six subsections on various aspect of financing issues. Due to the complexity of this table explanatory notes are provided after each subsection. States that provided “0” or no data are excluded from averages.

STATE	Operating Expenses - Source of Funds					Total Operating Expenses
	Park Generated Revenue	General Fund	Dedicated Funds	Federal Funds	Other	
Alabama	29,585,660	-	3,301,737	-	1,739,190	34,626,587

Table 5A: Financing – Operating Expenditures
(page 2 of 19)
Explanatory Notes

STATE	NOTES
Alabama	Sales Tax Discount for Park Operations, fines, restitution, easements, oil and gas, Casualty Losses, timber sales
Alaska	Other state agencies - Fish & Game, DNR.
Arizona	Budget cuts and sweeps in FY10 resulted in decreased park generated revenues due to park closures, reduced park operating schedules, and partnership agreements with other government entities, where partners retain all park revenues.
California	Table 5a - 'Other sources' include Reimbursable Funds. Table 5a -'Dedicated funds (from ear-marked sources)' includes boating gas tax monies.
Colorado	Other Sources- Lottery, Great Outdoors Colorado (dedicated); Interest, grants, donations, awards, citations, etc.
Georgia	Timber revenue: \$579,709; Hotel / Motel Tax revenue: \$149,604; Bond repayment funding: \$1,899,453.
Idaho	Other Sources: Misc. receipts (Fund 0349) and indirect cost recovery (Fund 0125)
Indiana	Operating Expenditures Other Sources = Payments from Concessionaires' Operations
Iowa	Dedicated Funds: Appropriation from the Environment First Fund Other Sources: Cedar Rock Trust; Sand & Gravel royalties, barge fleeting \$, ag leases, nature store, donations, misc. Federal Funds - grants for trail crews, Americorps workers
Kansas	Changes made 2010
Maryland	Reimbursable Funds.
Massachusetts	Other sources is the campground reservation fees. Staff Source: George Trubiano
Minnesota	Includes funding from the Legacy Sales Tax Amendment.
Montana	Park Generated includes: Parks fees; Optional Light Vehicle Registration; RV Registration fee Dedicated Funds include: Natural resource taxes; Fuel taxes; Accommodation taxes; OHV, Snowmobile, Boating fees; Grants administration
Nevada	Other Sources include: Donations; Enterprise Sales Other sources include: Easement lease payments,, interagency transfers, excess property sales and returned check charges.
New Mexico	The 09/10 data reflects the actual expenditures, not appropriations for the State FY11 Parks Operating Budget including the Motor Boat Fuel Tax Fund. Note: other sources of funding include park fund balance.
New York	Financing and Operating Expenditures are based on the '10-11' NY Fiscal Year which runs from April 1, 2010 through March 31, 2011.
North Carolina	Other sources: sales of surplus equipment.
Oklahoma	Other Sources
Oregon	Park Generated Revenue detail in Table 5e. Dedicated funds: Deschutes River \$238,293; Sinking funds \$2,813,655; Salmon Plate \$247,603; RV (net of transfer to counties) \$9,125,163; Marine Board \$158,361; Rest Area \$1,512,963; Roads transfer from ODOT \$259,194. Other sources include Lottery, Interest (ATV excluded), Forest Management, beginning balances, etc.
Pennsylvania	Other = Oil & Gas Lease Fund
South Carolina	Appropriation money from General Assembly.
Tennessee	Amounts noted are initial budgeted amounts-not actual expenditures Other sources - interdepartmental revenue
Texas	Actual Available Revenues generated by State Parks is \$38,483,182 Dedicated Funds include \$40,505,846 in Sporting Goods Sales Taxes generated revenue transfer to State Parks Includes Capital Equipment/Vehicle purchases and Minor Repair Funds Employee benefits (Fringe) is not included Does not include Construction and Major Repair
Washington	Donations to parks available as an opt-out when renewing vehicle license tab collected by DOL.
Wisconsin	Other Sources: Concessions
Wyoming	In previous years capital funds were errantly included here (park generated funds, dedicated funds, fed funds). This was corrected in 2008 AIX and only Operating Expenses covering salaries and supplies included here.

Table 5B: Financing – Capital Expenditures
(page 4 of 19)
Explanatory Notes

STATE	NOTES
Alaska	Statutory Designated Program Receipts
Arkansas	Other source is Arkansas Natural and Cultural Resources Council grant funded by a portion of real estate transfer tax.
California	Table 5b - Other sources include Reimbursable Funds.
Delaware	Other sources: DelDot Transfers
Georgia	Park Generated funds were primarily from parking passes.
Indiana	Internal note: Refer to email from James Davis 10/24/2011 to Christie Wilmoth for specific projects included in "other sources". Fixed Capital "other sources" also includes road projects that might not have been included in previous years.
Iowa	Dedicated Funds: Jobs funding, MFT fund, Park and Institutional Road Fund (P&I), REAP (Resource Enhancement and Protection fund); Lake restoration
Kentucky	Park Generated Revenues: CMRF (Capital Maintenance & Renovation Fund Dedicated Funds: KHLCF (KYHeritage Land Conservation Fund Federal Funds: ARRA (American Revitalization & Reinvestment Act) and BBHG (Big Bone Housing Grant) Other Sources: E.P. Tom Sawyer Sawyer-Hayes Project
Maryland	New construction funded through Program Open Space and Waterway Improvement Funds. Land acquisition funded through Proram Open Space.
Massachusetts	Staff Contact: M. Abrahams (see spreadsheet)
Missouri	Other sources: Natural Resources Damages Funds
Nevada	Other Sources - State Lands - Lake Tahoe License plate grants.
New Jersey	To clarify the difference between the General Fund entry for 2009 and 2010. In previous years, funding was carried over into the next fiscal year; however in the 2010 fiscal year, the funding was not carried over, rather it was used by the NJ Dept. of Treasury to help the budget shortfall.
New Mexico	General Fund=Ratio of Capital Expend. (Not from Ded. Sources) Between Park Generated Rev. and GF. Dedicated Funds = Capital Improvement Projects funded from Governmental Gross Receipts Tax proceeds, Mccune, Motor Boat Fuel Tax, Albuerque Water Settlement. Bond Proceeds = Severance Tax Bond proceeds appropriated by the Legislature. Federal Funds = Bureau Of Reclamation & Land & Water Grants. (Does not include Dingle Johnson funds shown in operating budget).
Oregon	Table 5b: Fixed Capital Expenditures Dedicated Funds = Land Acquisitions - Lottery & Federal Funds Federal Funds = Federal Funds, Facility Investment Program (FIP) Other Sources = FIP: Other Funds and Lottery Funds Data source: Brandy Nichols (Brio query)
South Carolina	Re-directed revenue.
Tennessee	Major Maintenance Funding-\$2,100,000 Capital Projects Funding - \$10,560,000 State Land Acq. Funding - \$1,147,893 Federal Matching for Land Acquisition - \$180,603
Vermont	Land & Water Conservation
Wyoming	Federal funds include Teal, BOR Title 28, RTP spent at Parks Other funds=MBGT

Table 5C: Financing - Parks' Share of State Expenditures
(page 5 of 19)

STATE	Share of Budget		
	State Operating Budget	State Park Operating Budget	% of State Budget
Alabama	18,016,546,000	35,783,231	0.199%
Alaska	9,820,354,800	12,647,000	0.129%

Table 5D: Financing – User Fees
(page 12 of 19)
Explanatory Notes

STATE	NOTES
Arizona	<p>>If a vehicle contains more than 4 adults at a park that assesses a "per vehicle" user fee, each additional adult is \$3.00. This number is included in this category above, whereas it used to be counted in "per vehicle" category. Also, individuals who walk up to the gate and individuals on bicycle are charged \$3 entry fee at parks that typically charge by vehicle. >"Per Adult Person on bus" category now includes per adult ticket price for commercial group tours to Kartchner Caverns as of FY10. This is a change in definition as compared to data submitted in previous years.</p> <p>>Additional lodging rental fee: Yurts \$35.00-\$50.00</p> <p>>McFarland State Historic Park is not included in the fee Per Adult Person as they now serve as the Visitor Center to the Town of Florence and no fee is charged.</p> <p>>Yuma Quartermaster Depot State Historic Park is not included on the fee Per Adult Person as it now serves as the City of Yuma's Visitor Center and no fee is charged.</p>
California	<p>Table 5d(1) - Number of Areas where Charged - The term 'area' represents the number of park units where vehicle day use fees are collected. Many park units have multiple areas (entrance stations) where fees are accepted.</p> <p>Table 5d(1) - Per Adult Person - Per adult person entry/tour fees.</p> <p>Table 5d(1) - Per Passenger Vehicle - Vehicle day use fees collected; including OHV units.</p> <p>Table 5d(1) - Vehicle Parking - Fees represent charges for bus parking. Total number of units accomodating small/large buses not available. Small Bus fees - \$50 / Large Bus fees - \$100.</p> <p>Table 5d(1) - Annual Pass - The term 'area' represents the number of park units charging vehicle day use fees. Many park units have multiple areas (entrance stations) where fees are accepted.</p> <p>Table 5d(1) - Annual Senior Citizen Pass - Data represents the Golden Bear Discount Pass (with income restrictions for eligibility) and the Senior Citizen Discount. Annual cost/fee for the Golden Bear Discount Pass is \$5 per calendar year. California State Parks also offers the Limited Use Golden Bear Discount Pass (persons 62 years of age or older are eligible to receive this pass with no income restrictions valid during non-peak season). Annual cost/fee for this pass is \$10 per calendar year. Data is not available for the Limited Use Golden Bear Discount Pass because of the variance of its validity based on peak/non-peak seasonality. Senior Citizen Discount. Permits year-round \$1 discount for vehicle date use and a \$2 discount for family camping for persons 62 years of age or older in state-operated parks regardless of income status without the need to purchase any pass.</p> <p>Table 5d(2) - Improved campsite with hookups; water and electrical hookups. Sewer hookups not provided at campsite, but dump station available inside the campground.</p> <p>Table 5d(2) - Some camping loops in some parks allow pets. Lodge rooms are operated by concessionaires.</p>
Colorado	<p>The Annual Senior Citizen pass was increased to \$60 in the middle of the FY. The price is now set at the cost of the annual pass less \$10. There is also a Lifetime senior pass that sells for 5 times the cost of the annual pass, currently \$350.</p>
Georgia	Minimum resident (& non-resident) went up from \$0 to \$5 when the "Free Wednesdays" program was discontinued.
Idaho	Those who have a valid Idaho RV sticker are not charged a reservation fee.
Indiana	Daily entrance fee is now \$5.00 per day, seven days a week, including holidays. Also, reduced minimum on cabin rental fee to include rent-a-camp cabins.
Iowa	Resort cabins were not included. The min/max for those cabins is \$179/\$499. The resort campground full hook-up fee is \$49. New cabin rental of \$200/night added. Camping reservations can be reserved 3 months in advance, not 90 days.
Kansas	changes made 2011
Kentucky	New Equestrian (Horse) Campsites located at Carter Caves SRP & Pennyrile Forest SRP: Minimum - \$21 Maximum - \$34
Louisiana	\$6 non-refundable reservation fee on all reservations. These fees are paid to our reservation service provider.
Maine	Areas with entrance fees now exclude all areas where fees are collected from "iron rangers," and payment, though required, is essentially voluntary. Advance campsite reservations = maximum number of days in advance in which a campsite could be reserved in the 2011 reservation season.
Maryland	Some camping loops in some parks allow pets.
Massachusetts	Dogs are not permitted in cabins or yurts or on those sites.
Missouri	Minimum price reflects off-season rates less a \$2.00 discount (applicable only to persons with disabilities and senior citizens).
Montana	The "cabins" category includes tipis, yurts and cabins, none of which are self-contained. Changes in minimum camping fees reflect range for all user types. FY2011 a reservation system was implemented which included fees for camping as well as reservations, cancellations, modifications, electrical, and non-resident fees. Approximately 75% of campsites in state parks are now reservable.
Nevada	5c- This amount is General Fund. Total for all sources is \$17,472,929,446.
New Hampshire	5C: Includes Agency income for DD&M and Bureau of Historic Sites budget. 5D: Vehicle parking includes meters & beach lots. Dogs are allowed at certain campgrounds.
North Carolina	5d(2): Also have group fees at The Summit Environmental Education Center. A motel-style room is \$70 (double occupancy); cabins are \$55 adults, \$35 youth. Rates include one meeting space, audiovisual equipment, three meals and a snack.
Oregon	<p>Annual pass "minimum" is for the 12-month pass; residents and non-residents pay the same price. The "maximum" is for the 24-month pass. Again, there is no difference in price for residents vs. non-residents for the 24-month pass.</p> <p>Lodge Rooms: Silver Falls USC (minimum) and Wolf Creek (maximum)</p> <p>Cabins: Standard Yurt (minimum) and Deluxe Yurts and Cabins (maximum)</p> <p>Improved campsite 3 HU = Full</p> <p>Improved campsite 2 HU = Electric</p> <p>Improved campsite no HU= Tent</p> <p>Primitive = primitive</p>
Pennsylvania	PA Lodges include: The Inn at Bald Eagle and Kings Gap Environmental Education & Training Center
South Carolina	Primitive Camping: Price is based on group size with a minimum of \$10.
South Dakota	'09/10 corrections - Entrance fees: Number of areas where charged should be changed to "62" for 'Per Adult Person,' 'Per Passenger Vehicle,' 'Per Adult on Bus,' and 'Annual Pass.'
Texas	Reservation fee applies to internet reservations only. Number of lodge rooms in 2009 should also be 225. Number of people allowed per campsite varies (4, 6, or 8) due to type of site.
Vermont	Due to the loss of Thetford and Lowell Lake as well as the free admission for Allis State Park, we only charge entrance at 49 parks. We accept the Green Mt. Passport in those same 49 parks.
Virginia	\$5 transaction fee applied to all overnight transactions including walk-ins.
West Virginia	Pets must be kept on leash no longer than 10 feet in campgrounds
Wyoming	Reservations made via "877" Number are \$10 dollars per site; if made via website \$8.00 per site.

Table 5E: Financing – Revenue Sources
(page 15 of 19)
Explanatory Notes

STATE	NOTES
Arizona	Fees charged per person or per vehicle for day-use entrance to parks, fees charged for the purchase of annual passes, and fees charged for Kartchner Caverns cave tours. Fees charged for annual passes and Kartchner Cavern tour tickets were classified in the "All Other Operations" category in data from FY09 and before. During FY11, some parks were operated by partners in order to address budget shortfalls. In some cases, revenues from these parks are kept by the operating partners and are not reported in the information above.
Georgia	Other Revenue \$3,657,438 (Contracts, Recreational Amenities, Day Use Rentals, Historic Site Admissions, Timber, Park Donations, Programming, & Equestrian income) MINUS \$2,225,848 (Sales Tax, Refunds, & Sales Tax) TOTAL \$1,431,590 for All Other Operations
Illinois	68.5% rooms of the total 187 rooms available for rent
Iowa	Reservation fees included in camping fees and some of the day-use lodge and shelter fees are also combined with camping fees.
Kansas	There is no revenue received from the resort as this is under a management agreement.
Massachusetts	changes to revenue made 2011
Michigan	Staff Contacts: George Trubiano and Stephen Scappicio
Minnesota	Recreation Passport entry program replaced traditional park sticker program beginning 10/01/2010
Montana	Golf course operations are included in All Other operations.
Montana	All other revenue above includes miscellaneous Park generated fees and the Enterprise fund, which generates revenue from the sale of interpretive merchandise.
New Jersey	All other revenue above includes group camping fees. For FY 11, group camping revenue is included under camping fees. Group sleeping facilities revenue reflects actual facilities such as shelters, cabins, etc."
	The difference in golf course operations is due to a change from a State-owned golf course that, in FY 11, is now leased by a management company. Revenue generated by fees in FY 11 is now generated from a lease.
New York	Data presented on this page includes information for both OPRHP and DEC.
North Carolina	other revenues = donations, special activity permits, grants, picnic shelters/community buildings/HARI facilities, concession contracts (CHRO, JORI and marinas), CRS vendor fees, pier permits, reimbursements (ranger housing electricity, etc), dock rental fees, employee rentals (ranger housing), equipment rentals at parks, other revenues (sale of surplus property, etc).
Oregon	Table 5c (Share of State Budget): State Operating Budget (source: Legislative Fiscal Office); State Park Operating Budget (52% of 2009-11 LAB for Admin and Ops of \$107,309,062; historically, 52% is used for estimating expenditures for the second year of the biennium) Overnight does not include Boat Moorage or Wolf Creek Concession operations includes Boat Moorage (Agency Object 8630) Lodge Room: Silver Falls, Wolf Creek Inn, and Frenchglen (closed in winter) Restaurants: Silver Falls, Wolf Creek Inn, and Frenchglen
Pennsylvania	PA Lodges include: The Inn at Bald Eagle and Kings Gap Environmental Education & Training Center
South Carolina	Tax amounts not reflected in any revenue or expenses.
Tennessee	Table 5e totals are actual revenue figures versus projected budget revenue in Table 5a.
Texas	Entrance fee total included revenue from Annual Pass sales Camping fees include all facility fee types. Our system does not distinguish between facility types. Revenue from oil and gas production on park land is not included.
Vermont	The "all other operations" includes, boat rentals, boat rentals taxed, firewood, gas, fishing, miscellaneous, resale items, shower, soda, ice, and transportation.

Table 5F: Financing – Revenue Sources
(page 19 of 19)
Explanatory Notes

STATE	NOTES
Arkansas	Other is Amendment 75, Arkansas's 1/8 cent Conservation Tax.
Iowa	Snowmobile and vehicle plates revenue is very minimal overall to park funding.
Maryland	A portion of the Real Estate Transfer Tax is assigned to Program Open Space and POS funds the Maryland Park Service by act of the Legislature.
Massachusetts	* Publications & Souvenir Sales: No approved merchandising plan during 2011. ** Investment interest: On Trust donated Funds. *** Other Funding: Inter-Agency Agreements; Federal trail grants; Public/Private Partnerships.
New Hampshire	General Fund monies fund the bureau of historic sites and the office of design, development & maintenance.
Texas	Motor Vehicle Plates are specialty license plates only.
Virginia	Other = timber revenue, surplus property sales
Washington	Donations to parks available through renewing vehicle license tab changed in FY10 to opt-out. During FY10 this raised \$10,794,774 and \$ 10,273,732 for FY 11 as part of the total funding for State Parks.
West Virginia	Employee housing - some key park staff, other than superintendent series personnel, rent on-site residences.

Table 6A: Personnel – Number of Positions
(page 1 of 9)

The number of staff positions is reported in this table by three categories: (1) whether they are full-time, part-time (regular year-around staffers that work less than a full forty-hour week) or seasonal (those individuals hired for temporary service during peak-use seasons) employees; (2) whether they work in the central office or in the field and (3) whether they are regarded as “park professionals” (those employees engaged primarily in work specialized to the needs of state parks) or not (those doing non-park-specialized work, such as clerical, fiscal, legal, etc. States that provided “0” or no data are excluded from averages.

Definitions

Table 1: Inventory

Areas are individual units, or pieces of property, managed as part of the state park system.

The total acreage of a state park system includes water surface area only when the measured water bodies are wholly enclosed within the boundaries of a unit of the state park system.

An operational area is one that is open for regular use by the visiting public, and normally implies an appropriate level of development and staffing. State park inventories are reported in the following defined categories by the individual states:

State parks: Areas containing a number of coordinated programs for the preservation of natural and/or cultural resources and provision of a variety of outdoor recreation activities supported by those resources.

State recreation areas: Areas where a clear emphasis is placed on the provision of opportunities for primarily active recreation activities.

State natural areas: Areas where a clear emphasis is placed on protection, management and interpretation of natural resources or features.

State historical areas: Areas where a clear emphasis is placed on protection, management and interpretation of cultural, historical and/or archaeological resources or features.

State environmental education sites: Areas used exclusively or primarily for conducting educational programs on environmental subjects, natural resources, conservation, etc.

State scientific areas: Areas set aside exclusively or primarily for scientific study, observation and experimentation involving natural objects, processes and interrelationships; any other allowable uses are secondary and incidental.

State forests: Areas that, while under the direct administrative supervision and control of the state parks agency, are identified separately from the state park system and distinguished from state park units by having primarily a forest management and/or timber production role rather than a natural area and/or provision of recreation role.

State fish/wildlife areas: Areas under the administrative supervision and control of the state parks agency that are identified and managed primarily for the propagation and recreational taking of fish and/or game ("fishing and/or hunting areas").

State trails: Linear areas outside any other unit of the state park system that provide primarily for trail-type recreational activities (hiking, cycling, horseback riding, etc.) and normally do not contain any land areas large enough to support non-trail activities.

Other and Miscellaneous areas: (*These were combined for the first time with the 2001 AIX*) - Areas other than the above, that are considered special or significant enough in a particular state to warrant separate identification and treatment and/or areas that are not easily categorized or distinguished, or are not considered significant enough to warrant specification — "everything else". (As updated August, 2000)

Table 2: Facilities

Facilities are the man-made structures and improvements provided on state park areas and owned by the state to facilitate appropriate use of the parks by the visiting public. While these facilities take many forms for many different purposes, only a few have been selected for inclusion in this report. They are described and defined as follows:

Campsites, improved: Designated sites with access to electricity, running water and modern toilets, either through hook-ups or central facilities, or both.

Campsites, primitive: Designated sites without access to utilities, other than primitive central restrooms (pit privies, holding tanks, etc.) and primitive water supply (pitcher pumps, etc.).

Cabins/cottages: Individual, self-contained rental lodging units, usually free-standing, but possibly in multiple arrangements, such as duplexes or “townhouses”. These units are not included as part of a larger campground and typically do contain kitchens and indoor bathrooms. *If a state has questions about how their units for this definition please call the NASPD Executive Director for further guidance.*

Lodges: Lodging facilities of varying size, but usually containing many rental units consisting primarily of sleeping rooms only, with either private or central bathrooms.

Lodge rooms: Independent sleeping rooms or suites within a lodge that may be rented by themselves.

Group sleeping facilities: Structures designed to be rented and/or used as sleeping quarters by identifiable groups, usually while conducting group programs in the park—“dormitories”.

Restaurants: Facilities for preparing and serving food for consumption on the premises (“eat in”) by individuals or groups on a pay-as-you-go basis, having a seating capacity of 25 people or more.

Golf courses: Any course containing at least nine regulation or “par 3” holes.

Marinas: Boat liveries containing multiple slips and providing at least some services (fuel, supplies, repairs, dry storage, etc.), as opposed to “docks” only.

Swimming pools: Swimming facilities of various sizes and shapes with an impermeable basin and a chemically treated, recirculating water supply, available for general public use with or without a separate fee.

Stables: Facilities for quartering horses for recreational use by the general public, either directly through rental of the horses themselves or indirectly through rental of the stalls.

Ski slopes: The number of individual “runs” designated for independent concurrent use for downhill skiing.

Table 3: Visitation and Use

Day use: A recreational outing by individuals arriving and departing the same day.

Overnight use: A recreational outing involving a stay overnight as an authorized part of the recreational experience—may be indoors (lodges, cabins, etc.) or outdoors (camping).

Fee areas: These are parks and other whole areas where entrance fees are charged and more reliable counts can be made. A “fee” area pertains to a whole area, and not to individual facilities or use areas within a park. Thus, users of campgrounds, swimming pools, etc., where a specific use charge is made would not be reported under “fee” areas unless there was also a general entrance fee for the park in which those facilities were located.

Non-fee areas: Parks and other whole areas where no general entrance fee is charged and attendance must be estimated or determined through other means—even though such parks and other similar areas contain facilities (such as campgrounds and swimming pools) that do require specific use charges.

Overnight visitation is also reported by the type of overnight accommodations used: campsites, cabins/cottages, lodges, group facilities and other.

The extent to which overnight accommodations are used is measured by “rental nights” and reported separately for campsites, cabins/cottages and lodge rooms.

Rental night: A “rental night” is a single night’s use of a single rental unit of a given overnight facility, regardless of the size of the party occupying that rental unit. Thus, a party occupying a campsite for a full week would represent seven “rental nights”.

Table 4: Capital Expenses

Land acquisition is reported in two categories (1) by purchase with cash or equivalent value, (2) by other means (such as donations and transfers from other government programs).

New construction is reported as the total cost of all construction initiated during the year, whether completed during that year or not.

Table 5: Financing

Operating expenditures: Includes only those expenditures for operation and maintenance of the state park system per se; excluded are other related expenditures for such things as grants-in-aid to other entities, debt service on bonds, etc.

Fixed capital expenditures: Includes only those expenditures for land acquisition, park construction, etc.
“User fees” are reported by the means of collection: individual visitor, passenger vehicle, bus, vehicle parking, and annual passes. For each type of fee, the rate is stated for both state residents and non-residents, and the number of parks where such a fee is charged is noted.

Table 6: Personnel

Salary ranges are reported for several general categories of personnel:

Field unit employee: Employee having broad public contact, interpretative, and park maintenance duties—e.g. a park ranger.

Field unit manager: Senior on-site employee; manages park, supervises subordinate personnel—e.g. a park superintendent.

Field supervisor: Oversees operation of a number of units in a given region—e.g. a district manager.

Operations chief: The one position responsible for direct day-to-day operation of the whole park system; normally the one to whom field supervisors report.

State park director: The one position responsible for overall direction of the state parks agency.

Ranger: employee with administrative, operational, management, and/or law enforcement responsibilities as their primary function. Employee may be involved with other activities such as routine maintenance or interpretation as additional duties.

Maintenance worker: employee with maintenance and upkeep being the primary responsibility.

Interpreter or naturalist: employee involved in the education of the public as their primary responsibility. Employee may be assigned other duties.
